SANDRA FORD WALSTON

Step up and claim your courage with *The Courage Expert* and innovator of *StuckThinking™*

Sandra Ford Walston helps organizations and individuals claim and apply the powerful virtue they already possess: courage. She proves there is a direct correlation between your success quotient and your courage quotient. "Applying everyday courage in the workplace to overcome StuckThinking™ turns uncertainty into empowered solutions," says the learning consultant, speaker and author.

KEYNOTE SPEECH – **COURAGEOUS LEADERSHIP** — *The Ethical Behaviors*

This keynote is based on more than fourteen years of extensive research that will redefine this hidden virtue and illuminate its possibilities for people at all levels and in all industries. Sandra is an internationally published author of the bestseller *COURAGE*. Her follow-up book, *STUCK 12 Steps Up the Leadership Ladder* (2010), is directed at any woman, regardless of title or credentials, who wishes to grow professionally by introducing courage actions at work. Her third non-gender book, *FACE IT! 12 Obstacles that Hold You back on the Job* (2011), confirms that what holds you back on the job is the same as what hinders achievement—the reluctance to face and implement a courageous life. "While courage remains a potential for everyone, it becomes a reality only for those willing to pay the price, which is why it is inherently scarce." Sandra's insightful and informative keynote is also available as a 2-4 hour transformational workshop.

Sandra leads people and organizations to:

- Claim and apply the behaviors of courage that manage talent retention
- Live out of self-actuating courage motivation
- Overcome obstacles that hinder attaining results
- Succeed amidst uncertainty
- Distinguish the importance of defining moments to discover what's important and what's not
- Recognize obstacles that keep you stuck from advancing
- Apply actions to keep stepping up to the next courage level

Courageous leadership supports how to:

- Recognize "The Five Levels of Courageous Consciousness"
- Reveal what comprises courageous actions during stressful times
- Demonstrate how to be a "courage change agent" and leverage the generation gap
- Expose why organizations are unable to consistently hit bull's eye targets
- Recognize and label behaviors of lost courage
- Incorporate courage actions—that do not cost a dime!

“I have been in the Health Care industry for 27 years and I have attended numerous conferences. Sandra's keynote at our annual convention was the best presentation I have seen and experienced. Her topic, ‘Courage: The Untapped Reservoir,’ was not only engaging, but she captivated everyone's attention. Her stories of everyday people painted pictures about how our courage is waiting to be awakened, and her concrete examples guided us to cultivate our own reservoirs of courage. Thank you, Sandra, for providing us with hope and for rekindling our energy to continue doing what we do best.”

— Jill Elliott, RN, BSN, MBA | Health and Community Services Director
