KEYNOTE TOPICS:

REAL LEADERSHIP IS COURAGEOUS: HOW TO DISCOVER YOUR COURAGE

How do courageous leadership skills affect employees and clients? Greenstone Farm Credit Services hired Sandra to conduct this successful presentation year after year. Why? Because the presentation answers critical questions like:

- How do I launch my courage into action?
- What are the outcomes when I apply my courage?
- What are the positive effects if everyone demonstrated courageous leadership skills at work?"

WOMEN WORKING WITH COURAGE: NURTURE IT, APPLY IT, DEPEND ON IT

Only 11% of women perceive themselves as courageous. This presentation encompasses 20 years of research, revealing how women can reclaim and utilize this dormant virtue. There's nothing like the collective feminine energy of courage displayed at work!

COURAGEOUS LEADERSHIP IS CONTAGIOUS: ENCOURAGING COURAGE

Targeted to people of all walks of life who have yet to recognize their everyday courage or have allowed their courage to stagnate. Attendees learn how to claim and utilize their courage, apply courage for effective communication and leverage courage to enhance team building and transform the workplace.

CONSCIOUS LIVING AND CONSCIOUS COURAGE

Have you ever said, "I wish I had more courage"? Perfect for healthcare professionals and caregivers, this presentation is for attendees who wish to live a more nurturing and fulfilled life. Sandra has uniquely blended 20 years of courage research with seven years as an 11th-hour hospice volunteer. In coming to terms with her own mortality, Sandra asked, "How much courage will I be able to summon to embrace my own eleventh hour?" Sandra challenges us to ask, "What would you do, right now, if you had unlimited courage?"
